Died of Quick Consumption.

The body of Mrs. Bessie Kinney, sister of Mrs. E. E. Turner, will pass through Pendleton tomorrow morning en route to Walla Walla for burial. Death occurred at Denver, of quick consumption. She was 20 years of age. Her husband was stricken with the disease about a year ago. Mrs. Turner will go to Walla Walla to attend the funeral.

An Intolerable Suspicion.

The janitor of a small school tendered his resignation to the committee, and remarked, in the course of his letter, that the suspicion upon him was unbearable.
He was called before the board for an explanation.
"Well, gentle," he said, "I am honest, and I won't stand being suspected. If I find anything about the school when I am sweeping, I always return it. Every now and then the teacher, or some one that is too cowardly to face me, gives me a slur."
"Why, a little while ago I read on the blackboard: 'Find the least common multiple.' Well, I looked all over the school for that; I shouldn't know the thing if I met it in the street."
"Last night, in big writing on the blackboard, it said: 'Find the greatest common divisor.' Well, I says to myself, 'both of them things are lost now, and I'll be accused of stealing 'em, so I'll quit!'"

Der meaning of Vorry is to go through a lot of troubles vich nefer happen.

SOR STATE SURVEY.

Lobby Will Support Such a Project Before the Coming Session of the Legislature on the Grounds That It Will Lead to Acquisition and Diffusion of Much Valuable Data—Will Try to Have the Eddy Law Amended, Not Repealed Outright.

A state geological survey will be suggested by the Oregon Miners' Association to the next meeting of the legislature.

At present complete and reliable information regarding the mineral resources of the state is not obtainable and a state geological survey is the readiest and most common manner of obtaining the information in other states. A committee of five, to be appointed by the new president of the association, W. D. B. Dodson, will draw up a bill to this effect, suggesting that the board to have the work in charge be composed of the president of the State university, the president of the Miners' Association and men of like caliber. That the board have its headquarters at Eugene and that an appropriation of not less than \$15,000 a year be made till the work is accomplished.

The executive committee, before which this matter came up at the state meeting in Portland December 12, also discussed legislation regarding the Eddy law, which fixes a tax on mining as well as others corporations on the amount incorporated for. It was suggested that the legislature be asked to change this in regard to mining companies so as to regulate the tax according to the output of the mine, as many mining companies incorporate for much more than the output of the mine at that time would justify and sell shares at much below face value in order to facilitate the sale of shares of stock and enable the company to obtain money with which to work the diggings. "Wildcat" schemes, it was suggested, could be controlled by further legislation.

As to "wildcats," it was stated by members of the executive committee present that there were many of these now selling stock in the East on mining operations in Oregon, which do not exist. As these "wildcats" are doing the mining industry in the state injury, it was suggested that further legislation be attempted to prevent the floating of such fraudulent schemes.

W. D. B. Dodson was elected president of the Oregon Miners' Association by the executive committee.

Marion C. Olsen, a cab driver in Portland, blew his brains out with a pistol December 14, in front of the postoffice. Discouragement on account of debts, supplemented with hard drinking of late, was the cause.

ELY BROTHERS, 26 Warren Street, New York

STATE GOVERNORS ON OSTEOPATHY.

Governor Grant, Vermont: "Osteopathy has been tried by the leading men and women of this state, and they testify to its merits. We will give it a chance."

Gov. Briggs, North Dakota: "Osteopathy has helped me and done good in my family, and in the hands of competent persons, as this bill limits it, will hurt no one. I will sign it."

Gov. Pingree, Michigan: "Osteopathy is a science entitled to all respect and confidence as a distinct advancement in the science of medicine."

Gov. Shaw, Iowa, (secretary of the treasury): "I am fully convinced that Osteopathy is a rational and scientific system of healing."

Gov. Altgeld, Illinois: "Osteopathy came to the rescue of myself and wife and did that which other things had failed to do. Honor to those to whom honor is due."

Gov. McMillan, Tennessee: "Osteopathy is one of the greatest discoveries of modern times."

Gov. Turner, Illinois: "There is no doubt that Osteopathy will reach and cure many chronic troubles that medicine will have little effect upon."

Similar expression came from Governors Stevens of Missouri, Lee of S. Dakota, Dillingham, Vermont; Taylor, Tennessee; Beckham, Kentucky, and Smith, Vermont.

Only a sound, scientific and complete system can elicit such expression from such men. You, who lack knowledge and regard Osteopathy as "rubbing" and a "fad," are due to investigate. Call on Doctors Holington, Despain Block, for information.
